

# GENDER REVEAL DRONE SHOWS

A unique and exciting experience

## Experience the Magic

Imagine the night sky illuminated with hundreds of drones, creating breathtaking formations and animations to reveal the gender of your baby. A drone gender reveal show offers a spectacular and unforgettable experience, far beyond traditional methods. It's a modern, eco-friendly, and visually stunning way to share your joy with family and friends.

## How It Works

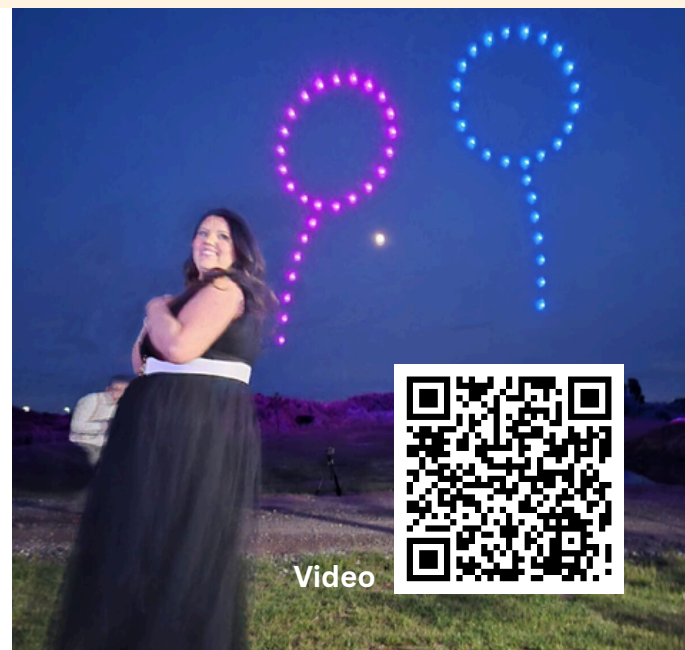

Our drone gender reveal shows are carefully choreographed and executed to ensure a seamless and awe-inspiring experience. Here's a glimpse of the process:

1. **Consultation:** We'll discuss your idea - where and when you wanted to perform the show. We need around 130m x 150m of space clear of people to fly the show.
2. **Design & Customisation:** We have designed a show that is customised to the gender of your child. You can send us a sealed envelope or ask a friend to help.
3. **Location & Logistics:** We'll assess your chosen location to ensure it meets the safety requirements.
4. **The Reveal!** The drones will perform the gender reveal by displaying baby pink or baby blue "it's a girl / it's a boy" to reveal if it's a girl or boy!

## Pre-designed show option - £3995

We've designed a gender reveal themed show to save on animation costs and provide a more cost effective display:

- **Schemes:** Baby themed scenes in both pink and blue display for around 5 minutes before the gender is revealed at the end with "it's a... boy / girl".
- **Duration:** The show is 5 minutes 45 seconds long
- **Music Synchronisation:** use a custom soundtrack - we'll provide the PA.

## Bespoke option - from £7995

Make your drone gender reveal show truly unique with a completely bespoke display:

- Color Schemes: Choose from a range of colors to complement your theme.
- Formations: Select from a variety of themed scenes or design your own such as names or dates.
- Cost: The cost is quoted for separately and depends on the number of drones
- Music Synchronisation: use a custom soundtrack - we'll provide the PA.
